

NOTICE

Lodi Lake and Mokelumne River Levels Above Woodbridge Dam Are Scheduled to Be Raised Starting March 1, 2010.

All landowners, homeowners, and interested parties who live adjacent to Lodi Lake or the Mokelumne River upstream from the Woodbridge Dam and its influences are hereby notified that Woodbridge Irrigation District will be filling Lodi Lake on March 1, 2010. Persons who have boats or boat docks and other property which may be effected or who are planning events should take the appropriate steps to protect their property. The Woodbridge Irrigation District does not accept responsibility for any effects or damages to property due to the rising of Lodi Lake or its influences. The raising of water behind Woodbridge Irrigation District's dam is an annual occurrence and a part of the District's operating plan. If more information is required contact the Woodbridge Irrigation District at (209) 369-6808.
